AGENCY NEWS

REPACK SURVEY We will again be asking you to provide feedback regarding what products should be offered in less than full case quantities. The request will be in the form of a series of surveys. As you recall, last year we sent you surveys asking for your input on the 50ml, 200ml and 375ml sizes. Based on the results of those surveys we removed products and added products to the re-pack area. Moving forward with this process, we will send you a survey requesting your input on the remaining sizes (750ml, 1L and 1.75l). The surveys will be broken down into product categories which means there will be a survey for each category. We will begin with the Whiskey category followed by the Gin category then the Vodka category and so forth. In order to expedite this process there will be a one week turnaround timeframe for each survey. This means we will send you a survey request each Friday and the deadline for that survey will be the following Friday. Your participation is important in this process. This is your voice in choosing what products are offered in less than full case quantities. We encourage you to please complete each survey so that the products offered in less than full case lots best suits your needs.

NEW LOOK....The monthly “Product Update” newsletter is taking on a new look. The format is being simplified. It will continue to provide you with the same important information each month relating to new products, discontinued products, price changes, changes in pack size and other relevant information. It will continue to include reminders about upcoming holidays and dates you must be closed. We will no longer include pictures of the new products which you can find on the product’s website. SCC and UPC codes will continue to be listed on our website. Please contact us if you need assistance, to provide feedback or have any questions.

The reason for the change is the amount of time spent on gathering pictures of new products and formatting them with the pertinent information. This change will help save resources which will allow us to devote more time to researching and ordering new products for you as well as having that time to better assist you with your day to day questions.

In the coming months Bacardi Superior, Gold & Select will be unveiling a packaging revamp for its flagship rum range. Intended to emphasize the brand's provenance and heritage, the new Art Deco-inspired look features a re-making of Bacardi bat logo, which is modeled after hand-drawn versions of the design from the early 1900s, as well as an updated label made of recycled cane fiber. Additionally, the Bacardi bottle has been reshaped to be a classic, taller, slimmer and more cylindrical style of bottle.

With these improvements we are also changing the name of Bacardi Select, to Bacardi Black— **330-043109-75**. Consequently it will have a new UPC & NABCA code. The new Bacardi Black will begin shipping in lieu of Bacardi Select.
